PROJECTS

Quiz-Website

[GitHub Link](#)

- Built an interactive quiz web application utilizing HTML, CSS, and modern JavaScript.
- Implemented dynamic DOM manipulation for real-time scoring and smooth state management.
- Designed a fully responsive layout ensuring cross-device compatibility and optimal user experience.

Calculator-Web

[GitHub Link](#)

- Developed a fully functional calculator application with a clean, retro LCD-style interface.
- Engineered accurate mathematical evaluation logic handling complex multi-step arithmetic operations.
- Integrated custom keyboard event listeners to enable seamless browser and hardware layout inputs.

Personal Portfolio Website

[GitHub Link](#)

- Created a personal website using HTML, CSS, and JavaScript to host digital projects and contact forms.
- Optimized asset loading and CSS architectures to ensure high performance scores and fast rendering.
